The highest recorded temperature was 116 degrees F in 1954

On average, the coolest month is January

The lowest recorded temperature was -19 degrees F in 1951

November is the average wettest month

Four Beautiful Seasons

There's a tattooed stigma that runs deep in the skin of the Ozarks. I'm sure you've heard it before it goes like this; If you don't like the weather were having stick around, it will change in a hurry! Well that's the truth. Unlikely weather is common and it's great. That and we get a little of all the seasons.

Let's start with Spring

Keep your umbrellas handy and who knows you may need a light jacket but that's optional.

Our "Spring" usually last from the end of March to the beginning of June.

Then comes Summer. Temperatures can range during these months from pretty warm to hot but all in all it's not too bad. Short sleeves and shorts are the common attire. Summer will take us into September when it's still pretty hot till well after labor day.

Then comes our personal favorite, Fall! The trees are starting to turn and the nights become cooler. And best of all all attire can usually keep you comfortable. Short sleeves with jeans or sweatshirts with shorts, it all makes for a comfy day usually during this season. Our fall like weather can take you through Thanksgiving and sometimes even get you as far as Christmas, you just never know around here.

Then finally... winter. Santa brings a lot of sleds around here because it's usually right after Christmas that they will be in high demand. Our winters are usually mild. It may snow one day and be gone the next. And then sometimes we have ice for a week. Winter usually hangs around till March and then we can do it all over again.
